

# Renovit®

Vitamin B<sub>1</sub>, B<sub>6</sub>, B<sub>12</sub>

## Composition

Renovit® Tablet: Each tablet contains Thiamine Mononitrate (Vitamin B<sub>1</sub>) BP 100 mg, Pyridoxine Hydrochloride (Vitamin B<sub>6</sub>) BP 200 mg, Cyanocobalamin (Vitamin B<sub>12</sub>) BP 200 mcg.

Renovit® Injection: Each 3 ml ampoule contains: Thiamine Hydrochloride (Vitamin B<sub>1</sub>) BP 100 mg, Pyridoxine Hydrochloride (Vitamin B<sub>6</sub>) BP 100 mg, Cyanocobalamin (Vitamin B<sub>12</sub>) BP 1000 mcg.

## Description

Renovit® is a combination of neurotropic vitamins B<sub>1</sub>, B<sub>6</sub> & B<sub>12</sub>. These vitamins in their role as co enzymes are indispensable factors in the metabolism of the nervous system. Renovit® normalizes the nerve cell metabolism and supports the regeneration of nerve fibers and myelin sheath by activation of the metabolism and the natural repair mechanism.

## Indication

Renovit® is indicated in mono and polyneuropathies of any origin such as diabetic, alcoholic or toxic neuropathies, chemotherapy-induced neuropathy, neuritis or neuralgia, especially cervical syndrome, shoulder- arm syndrome, lumbago, sciatica, peripheral neuralgia, facial neuralgia, intercostal neuralgia, spinal pain, Herpes Zoster.

## Dosage and administration

Renovit® Tablet: 1 to 3 tablets daily or as directed by the physician.

Renovit® injection: May be administered intramuscularly (deep intragluteal) in a dose of 1 ampoule daily in severe cases until the acute symptoms subside. For milder cases and follow-up therapy 2 or 3 ampoules per week.

## Side-effects

Renovit® is usually well tolerated. Hypersensitive reaction and sensitivity disturbance may occur rarely.

## Precautions

Cyanocobalamin should not be given before a

diagnosis has been fully established because of the possibility of masking symptoms of subacute degeneration of the spinal cord. Cyanocobalamin is not a suitable form of Vitamin B<sub>12</sub> for the treatment of optic neuropathies associated with raised plasma concentrations of cyanocobalamin.

## Contra-indications

Renovit® should not be used in patients on Levodopa therapy. Hypersensitivity to any of the above ingredients.

## Use in Pregnancy & Lactation

Adequate data is not still available regarding use of Renovit® in pregnancy & lactation.

## Drug interactions

No significant drug interactions have been reported.

## Packs

Renovit® Tablet: Each pack contains 30 tablets in HDPE container.

Renovit® Injection: Each pack contains 5 ampoules in blister pack.

## Storage

Renovit® Tablet: Store in a cool and dry place. Protect from light.

Renovit® Injection: Store in a cool and dry place below 25 °C. Protect from light.
